Summary of Proposed Action Steps

Please submit a one-page summary of the action steps your team worked on while at this conference. This must be turned in on disk prior to the end of the conference. Several campus teams will be randomly chosen to present their summary at the last session of the conference.

Cape Fear Community College will:

- Conduct a feasibility study to create an International Business concentration under the Business Education curriculum;
- Forge a stronger link between Continuing Education and the Curriculum Transfer divisions of the college to better address the needs of the ESL student population and to bridge their transition from Continuing Education into Curriculum Transfer programs for a more seamless and successful education at higher levels;
- Survey and propose faculty development projects that include the study of global education issues, cross-disciplinary conferencing, measurability of success in incorporating global education in the curriculum, and related concerns;
- Strengthen the alliance between the college and Wilmington's Chamber of Commerce, the Wilmington Industrial Development Council, Sister City programs, University of North Carolina—Wilmington, and other institutions and organizations to more effectively ensure that we meet the educational and training needs of the global community and help to ensure the growth of global business in the community;
- And, suggest governing structures, planning committees, and funding strategies to ensure completion and effective implementation of the action plan.
