Summary of Proposed Action Steps

Stanly Community College will establish a Multicultural Center.

Stanly County has seen at least a 129% increase in the Hispanic population and an 89% increase in the Asian population. Due to lack of consolidated efforts and a central location, Stanly Community College needs to establish a Multicultural Center. The Multicultural Center would allow immigrants to become acculturated and productive residents by providing life enhancing skills and workforce development opportunities. To our knowledge, there are no consolidated efforts occurring in Stanly County. The center will be open to all immigrants, business and industry personnel, community service providers, SCC's faculty and staff, SCC's students, and the community at large.

The Multicultural Center will assist the new immigrant to become an acculturated, responsible and productive resident of Stanly County; promote appreciation and understanding of Hispanic and Asian culture; improve relations between the immigrant populations with the native Stanly County community; and increase communications and exchange among the community at large. The center will provide a new global perspective for Stanly County residents. The Stanly Community College's Global Education Committee will research and provide a detailed procedure for the Multicultural Center by summer of 2001. After the Stanly Community College's Global Education Committee develops the procedure for implementation of the Multicultural Center, a detailed evaluation will be established. The Stanly Community College's Global Education Committee will establish a detailed budget for the Multicultural Center by spring 2001. The committee will aggressively pursue grant funding for the implementation of the Global Education Action Plan.
