

February 16, 1998

MEMORANDUM

To: Basic Skills Directors

From: Randy L. Whitfield, Ed.D.
Associate Director Basic Skills

Subject: Basic Skills Special Project Application for 1998-1999

Special experimental demonstration projects are those that involve the use of methods, systems, materials, or programs which may have national significance or will be of special value in promoting effective programs.

Attached are an application form, an evaluation form, and the 1998-1999 priorities for Special Experimental Demonstration Projects. You are also encouraged to develop other local priorities that would benefit your program. If you want a copy of this form on disk or want to have it transferred to you electronically, please call Dr. Florence Taylor at (919) 733-7051, ext. 720.

Funds are awarded on a competitive basis and are available for innovative projects in any of the five component programs of Basic Skills. Special project funding is awarded only as seed money to begin new and innovative projects. Funds from this source will not support the project on a continuing basis.

Five copies (5) and the original special project application must be postmarked by April 1, 1998. If you have any questions, please contact me at (919) 733-7051.
