MEMORANDUM

TO: Presidents

FROM: H. Martin Lancaster

SUBJECT: Governor's Coordination Criteria and Goals
and Objectives for North Carolina's Workforce Development
Program Year 1998

As required by the Job Training Partnership Act Reform Amendments of 1992 and upon recommendation of the Governor's Commission on Workforce Preparedness, the Governor has established criteria for the coordination of workforce development programs and related services provided by state and local agencies.

Each state agency has been asked to distribute the Governor's Coordination Criteria and the Governor's Goals and Objectives to their local counterparts for guidance in planning and administering local workforce programs. Therefore, attached is a copy of the goals and objectives, as well as the criteria which pertains to the System Office and local community colleges.

At a time when coordination of workforce development programs is crucial to the colleges, I encourage each of you to read both attached documents and to strengthen coordination with the appropriate JTPA Service Delivery Area(s) (SDAs) and Workforce Development Boards (WDBs) for the delivery of employment and training programs and services.
