

MEMORANDUM

TO: Presidents

FROM: Steve Ijames, Director
Information Services

SUBJECT: Curriculum Student Progress Information System (CSPIS)

DATE: September 10, 1998

This is a reminder that CSPIS data are due in the System Office by October 3, 1998. CSPIS is an annual data collection on curriculum students enrolled at your college last year. The data collected enables the System Office to report on completers for state and national reports. It also permits state-level reporting on the progress of students by program as measured by credit hours earned. With the 1998 report, CSPIS will provide the data needed to produce reports and analysis of the Tech-Prep Program.

Review the instructions. New data elements have been added. The CSPIS record layout, description of data elements and codes used are on our web site www.ncccs.cc.nc.us, in the “documentation” section, report DCC-7-42.

IIPS Release 14.7, to be available mid-September, must be installed before running the CSPIS report.

Please feel free to call Vicki Strayer [(919) 733-7051 Ext. 354] or Arthur Hohnsbehn [Ext. 365] with any questions.

Thank you.
