

February 18, 1999

MEMORANDUM

REPORT DUE
March 19, 1999

TO: Presidents

FROM: Brenda H. Rogers
Vice President for Administration

SUBJECT: *Estimated Spring 1999 Enrollment Data*

To provide the legislative committees and legislative fiscal analysts with projected FTE for the System, please submit an estimated enrollment report. This is a report on the Annual Reporting Plan.

Please submit the **actual** membership hours at the 10 percent census date and **estimated** contact hours for programs or classes as mandated by the Administrative Code; estimated annualized FTE; and estimated unduplicated headcount for curriculum, occupational extension, and Basic Skills students. Data should include the second mini-session, if offered.

The curriculum membership hour data can be generated at the 10 percent census date by running the estimated FTE program (CC.RG menu sequence 4-3-5) on the IIPS software. For occupational extension courses use CC.CE menu sequence 3-4-11. For programs requiring end-of-semester contact hour data, you will need to estimate the hours and add to the appropriate line—curriculum, occupational extension, or Basic Skills. The formulas for calculating the annualized FTE are provided on the attached form. Please give us **unduplicated** headcount for each program area—curriculum, occupational extension, and Basic Skills.

Two copies of the report form are being sent to the Data Coordinator who should coordinate with appropriate college staff in the completion of the reports. The Spring 1999 estimated enrollment data are due by **March 19**.
