

**NORTH CAROLINA COMMUNITY COLLEGE SYSTEM**  
*H. Martin Lancaster, President*

May 4, 2001

**MEMORANDUM**

**TO:** Financial Aid Administrators

**FROM:** Pamela Little, Associate Director  
Student Development Services

**SUBJECT:** CP&L Scholarships

Progress Energy (formerly CP&L) will make changes to the CP&L General Scholarship and CP&L Electric Lineman Scholarships that are funded through their contribution to the System Office. Therefore, you should not award scholarships for either of these programs until further notice. (Employees of CP&L who are funded through direct billing and reimbursement to Nash CC are not affected by this change). Indications from Progress Energy are that a smaller number of colleges (four) will receive the CP&L General Scholarship funds and that the CP&L Electric Lineman scholarships may be restricted to employees of the company.

The Progress Energy Foundation Board will be meeting in June to consider the changes to the CP&L General Scholarships. We will keep you informed of that outcome as well as changes to the Electric Lineman Scholarships.

If you have additional questions, please contact me at 919/733-7051, ext. 440.
