RE: Guide to Residentiary Assessment of Alien Documentation

Attached is a copy of the revised "Guide to Residentiary Assessment of Alien Documentation." The guide lists various documents issued by the Immigration and Naturalization Service (INS), identifying each as to whether it does or does not support a finding that the holder has residentiary (domiciliary) capacity for the purpose of establishing North Carolina residence for tuition purposes.

Please share this information with those at your college who are concerned with classification of students for tuition purposes.
