

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
H. Martin Lancaster, President

February 19, 2004

TO: Community College Presidents

FROM: Sandra W. Williams
Vice President for Administration

SUBJECT: College Information System (CIS) Equipment Investment

In the CIS Update at the President's Association meeting on January 22nd, I reported that we need to provide information to external stakeholders on the community college's investment in equipment to support the CIS project. To provide that information, I am requesting that you provide me with your college's equipment purchase cost for the CIS project by February 27, 2004.

To assist you in providing the equipment cost, the following equipment categories are included in the CIS project's Hardware Infrastructure document (at:
http://www.ncccs.cc.nc.us/IT_Projects/docs/CIS_Project/Misc%20Documents/infrastructure_recommendations.pdf)

- Colleague Database & Applications Server
- Safari OLAP Server
- Safari Infoserver
- Web Advisor Server
- Document Imaging Server (Bluebird/OpenText)
- Telephone Reg./Voice Response System (EPOS)
- Electronic Data Exchange
- E-commerce/E-Procurement

For each category, and for any other types of equipment that your college has purchased to support the CIS system, please provide the quantity purchased, the total cost and the year(s) in which the equipment was purchased in the attached spreadsheet. Please return the spreadsheet via email attachment to Bob Blackmun (blackmunb@ncccs.cc.nc.us).

If you or your staff have questions about the information that I am requesting, please contact Bob Blackmun at the above email address or 919/807-6988.

Thank you for your assistance.
