MEMORANDUM

TO: Chief Academic Officers

FROM: Darryl McGraw, Associate Vice President
Instructional Development and Technology

SUBJECT: Mechanical Engineering Technology (A40320)

As a result of the Mechanical Engineering Technology Curriculum Improvement Project, the State Board of Community Colleges approved a revised standard for Mechanical Engineering Technology (A40320). This revision incorporated the following four current standards into one:

Mechanical Engineering Technology (A40320)
Mechanical Engineering Technology/Drafting and Design (A4032A)
Mechanical Engineering Technology/Fire Sprinkler Design (A4032B)
Manufacturing Engineering Technology (A40300)

Action was taken to archive A4032A, A4032B, and A40300, effective Spring 2006; therefore, colleges that currently offer these programs will be approved for Mechanical Engineering Technology (A40320) and will have one year to implement the revised standard. Please file a Program of Study (POS) for A40320 to complete the approval process.

If you have questions or need assistance please contact Mike Pittman at (919) 807-7111 or pittmanm@ncccs.cc.nc.us.
