

**NORTH CAROLINA COMMUNITY COLLEGE SYSTEM**  
*H. Martin Lancaster, President*

January 23, 2007

**MEMORANDUM**

**TO:** Community College Business Officers

**FROM:** Kennon D. Briggs  
Vice President for Business and Finance

Bill Randall  
Associate Vice President for Learning Technology Systems

**SUBJECT:** Supplemental Information for Office of State Budget and Management

The System Office staff recently met with Office of State Budget and Management (OSBM) staff regarding the NCCCS 2007-09 Consensus Budget requests. As a result of that meeting, we have been asked to supply OSBM with a detailed list of data connectivity currently used by the community colleges. This information is necessary to support the proposed request for \$4.6 million for data connectivity across the System.

There exists an updated list of data connectivity supplied by ITS and MCNC for all 58 institutions. However, data connectivity purchased by individual community colleges from secondary Internet Service Providers (ISP) is unknown. These secondary ISPs include Time Warner Cable, Cox Cable, and large and independent Telco's including Sprint, BellSouth, and CTCommunications (an example of an independent Telco).

OSBM requests a complete listing of secondary ISP services and their cost for each of the colleges. Included with this memo is a survey that asks each college to submit a listing of all secondary ISP service providers and costs. Please complete the survey with the requested information and **fax to Bill Randall at 919-807-7164 before Monday, January 29, 2007.**

If you have any questions about the survey, please contact Bill Randall at 919-807-7061 or randallb@ncccommunitycolleges.edu.
