Academic and Student Services

SUBJECT: Learn and Earn Online Courses

The attached spreadsheet lists the local school administrative units that responded to the request from the State Board of Education Chairman to indicate their intent to participate in the Learn and Earn Online program beginning fall 2007. Each of the listed public school systems responded by April 26, 2007 and provided assurances of district-level connectivity of 10mb or greater, high school building-level connectivity of 10mb or greater for each of the (high) schools listed to participate, designation of a distance learning facilitator to support students taking Learn and Earn Online classes, and commitment to schedule Learn and Earn Online courses for qualified students in the fall of 2007.

These courses will be provided by community colleges and the University of North Carolina iSchool. Details on the Learn and Earn Online program are still being developed by representatives of the University of North Carolina General Administration, the North Carolina Community College System Office, the Department of Public Instruction, a university campus, a community college campus, and public schools. This information will be released as soon as logistical, technical, student support and policy issues are resolved. Budget information including the funding model (will not use the traditional FTE) will be released as well. Implementation of the Learn and Earn Online program is subject to funding by the North Carolina General Assembly in the 2007-2009 biennium state budget.
