Subject: Requested Change in Curriculum Standard for Horticulture
Technology (A15240)

We have received a request to revise the curriculum standard for Horticulture Technology (A15240). The request is to reduce the number of hours in the core for the diploma from 15 to 12 SHC and to delete the asterisks so colleges may choose the courses needed. Approval of the proposed change will allow more flexibility for the colleges to meet local demand.

Enclosed are copies of the current curriculum standard and the proposed standard. Please indicate whether your college agrees or disagrees with the proposed change on the enclosed response form. ***Please print the Proposed Curriculum Standard Revision Form, complete and mail by March 28, 2001, to:***
