

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
H. Martin Lancaster, President

February 11, 2004

RESPONSE DEADLINE: FEBRUARY 23, 2004

MEMORANDUM

TO: Select Chief Academic Officers

FROM: Edith Lang, Program Coordinator
Math/Science and Developmental Education

SUBJECT: Revision of prerequisites for BIO 175 General Microbiology

The Curriculum Review Committee has received a request for revision of the prerequisites of BIO 175 General Microbiology.

Current: BIO 110, BIO 163, BIO 166, or BIO 169

Proposed: BIO 110, **BIO 111**, BIO 163, **BIO 165**, BIO 166, **BIO 168**, or BIO 169

College Rationale: *BIO 175 prerequisites are based on the need for student to have completed a lab-based course, not necessarily the specific course content. These additions would allow students to enroll in BIO 175 while concurrently enrolled in the second semester of A&P. Accordingly, students will be able to complete the sequence in two semesters rather than three.*

Please review this request and indicate your decision on the attached form. Please fax your response to me at 919-807-7164 by **February 23, 2004**. If you have questions, please call me at 919-807-7119, or email me at lange@ncccs.cc.nc.us.
