

STATE BOARD OF COMMUNITY COLLEGES
CURRICULUM STANDARD REVISIONS

The State Board is asked to approve revisions to the following curriculum standard:

Fayetteville Technical Community College
Central Sterile Processing (Certificate) (C45180)

CURRICULUM STANDARD REVISION

**Fayetteville Technical Community College
Central Sterile Processing (C45180)**

Fayetteville Technical Community College is seeking approval to revise the Central Sterile Processing (C45180) curriculum standard, effective Spring 2011.

The proposed revision follows:

- Add an Anatomy & Physiology subject area with the option to take BIO 106 (Intro to Anat/Phys/Micro) or BIO 161 (Intro to Human Biology).

Rationale of Requesting College: The proposed revision allows colleges the flexibility to offer either BIO 106 or BIO 161 as the anatomy and physiology class. Industry needs and expectations will be met with either of these courses.

Seven colleges are approved to offer the program. The voting results follow:

- 3 colleges recommend the revision
- 1 college did not recommend the revision
- 1 college did not respond
- 2 colleges declined to vote
