

CURRICULUM STANDARD REVISION

Central Piedmont Community College Cardiovascular Technology (Invasive and Non-Invasive) (A45170)

Central Piedmont Community College is seeking approval to revise the Cardiovascular Technology (Invasive and Non-Invasive) (A45170) curriculum standard, effective Fall 2011.

The proposed revision follows:

- Add the following courses to the core in the required subject area *Invasive*:

ICT 244	Peripheral Vascular Cath
ICT 254	Intro to Cardiac EP

- Change semester hour credits or course title to the following core courses:

ICT 114	Intro Cardiovascular Tech
ICT 134	CV Anatomy and Physiology
NCT 113	Electrocardiography
NCT 133	CV Ultrasound Prin
NCT 273	Echocardiography III

- The proposed change would result in a change in the major hours required from a range of 41-43 semester hour credits to 46 semester hour credits.

**Please note that the proposed curriculum standard includes new and revised courses approved by the Curriculum Review Committee on September 28, 2010.*

Rationale of Requesting College: Input received from the medical community, their advisory board and revised national accreditation standards necessitated the proposed revisions and additions to their program.

Central Piedmont Community College is the only college approved to offer the program.

Coordinator: Ms. Renee Batts, Allied Health Programs
