

CURRICULUM STANDARD REVISION

Wake Technical Community College Baking and Pastry Arts (A55130)

Recommendations from the 2008-2010 Hospitality Curriculum Improvement Project (CIP) included the following proposed revisions to the Baking and Pastry Arts (A55130) curriculum standard:

- Addition of the *HRM 245 Human Resource Mgmt-Hosp* course to the core
- Addition of COE Subject Area to the core
- Revision of the curriculum description by:
 - Addition of environmental stewardship and operational efficiencies to competencies
 - Editorial Revision
- Revision of hours required due to additions
- Addition of the following prefixes to the “Other Major” section of the standard:

ENT (Entertainment Technologies)	OST (Office Systems Technology)
ETR (Entrepreneurship)	RSM (Resort and Spa Management)
FST (Food Service Technology)	SST (Sustainability Technologies)
HOR (Horticulture)	TAT (Travel and Tourism)

**Please note that core course revisions approved by the Curriculum Review Committee on September 28, 2010 are reflected in the proposed curriculum standard.*

Rationale for Revisions:

Industry advisory committee members indicated the need for graduates to be prepared with the human resource management skills provided through HRM 245.

The addition of a COE requirement will assure that all Baking and Pastry Arts programs across the state provide students with at least 2 semester hour credits of work experience.

Industry demands include theoretical knowledge and practical applications in environmental stewardship and operational efficiencies.

The additional prefixes will allow colleges to utilize content areas that meet the needs of their local community.

Five colleges are approved to offer this program. The voting results follow:

4	colleges recommended the revision
1	college did not respond
