### Statement from Dr. R. Scott Ralls, President, NC Community College System on Admissions Policy

“I commend our State Board on a positive conclusion to a very difficult task. The Board came down on the side of educating people who have already demonstrated success by graduating from a US high school, who must pay a much higher rate of tuition to enroll and who will not displace a legal resident in obtaining a seat in a classroom. In short, this policy reflects the admissions standards of other states and of the public universities by offering educational opportunity to those who are willing to work hard to obtain it.”
