

**NORTH CAROLINA COMMUNITY COLLEGE SYSTEM**  
*H. Martin Lancaster, President*

February 3, 2005

MEMORANDUM

TO: Selected North Carolina Community College System Faculty

FROM: Mike Pittman, Director of Special Projects  
Program Services

SUBJECT: Articulation of Online Degrees with the  
University of North Carolina System

You have been selected by your college to serve on an articulation committee representing the North Carolina Community College System. The committee will be composed of five teams. There will be three representatives from the Community College System and three representatives from the University System. The focus of the committee is to explore the possibility of articulating several university online degree programs between the UNC System and the Community College System. Five curriculum areas have been identified: (1) Communications, (2) Business Administration, (3) Information and Computer Technology, (4) Liberal Studies, and (5) Criminal Justice. The teams' objective is to accomplish the following two goals:

- ?? to match existing community college online courses to existing university online degree programs
- ?? an NCCCS system-wide-to university specific path for obtaining a bachelor's degree via distance learning delivery

The end result will be to bring resulting programs under the articulation agreement and assure that all faculty teaching in the program meet the SACS criteria for baccalaureate level degree.

Our first meeting will be from 11:00 a.m. to 3:00 p.m. on March 4, 2005, in Chapel Hill at the UNC Office of the President, Board Rooms 1 and 2.
