## Section 18

### SERVICE AREA ASSIGNMENTS

#### Philosophy

Services areas were established to regulate the offering of courses by colleges in specific geographic areas in order to eliminate duplication of services by different colleges in the same area. The assignments do not regulate or establish attendance areas. Citizens may enroll in any course at any college they choose.

#### Purpose

The purpose of service area assignments is to assign specific geographic areas for all colleges, assigning the authority and responsibility for providing courses in a county other than the one in which the college is located. The assignments also include a coordination procedure, whereby a college may offer courses in another college's service area when there is mutual consent and written agreement approved by the State Board.

Note: See Special Provisions (1-7)
