**Release to all colleges on 01/26/18**

- Addresses additional error conditions
- Allows colleges to send a file when error conditions exist

### **SCR 202120 (ST-NRS Updates #2)**

**Release to all colleges on 04/04/18**

## NRS Patches for 2017\_2018 Reporting Year

- Addresses AHS Program Placement
- Delivers Informer Personnel Report
- Delivers XLEAHS Informer Report
- Updates Disability Codes on PHIN
- POP Summary
- Updates to XLLP
- Updates to XLPT

### **SCR 202131 (ST-NRS Parameter File Update)**

**Released to all colleges on 03/01/18**

- Modified key field settings for parameter file

### **SCR 202137 (Modifications to XLAR for non-Solaris)**

**Released to all colleges on 03/15/18**

- Corrected an issue that non-Solaris colleges were receiving
- Needs to be installed by all colleges as a preventative measure for future

### **SCR 202182 (ST-NRS Update #3)**

**Tentative Release on 05/31/18**

- New student has test before the intake. The test shows on the POP record but is showing on the TNP - Test Not in POP report
- Post-Secondary MSG is awarded to students that registered for another BSP section
- Need to be able to run XLEFIX in smaller batches
- Fix for year-end file name sorting issue - current naming convention will cause problem in June to July transition
- Additional flat file extract fields needed
- Modifications to flat file audit report needed
- **Remove global override from XLTR preventing files with errors from transmitting to the System Office**
- User enters partial test data or 0 in the component and form fields on XLESI but later removes the partial test. The partial test is written to the student anyway.
- Revise 1st attendance date on XLEPI
- User can change the test score on tests in a closed program year.
- Table 4B does not display AHS students
