English language learners (ELLs) are consistently a substantial portion of adults served in U.S. adult education programs. Forty percent of the students enrolled in program year 2012-13 were in English literacy classes, and 78 percent of those students were between the ages of 25 and 60. The fact sheet highlights the changes in the Adult Education and Family Literacy Act, or title II of WIOA, for ELLs.
(1) the degree to which they are “responsive to...serving individuals in the community...who are English language learners...”;

“whether the eligible providers’ activities...are based on the best practices derived from the most rigorous research available and appropriate...”;

“whether the eligible provider’s activities provide learning in context, including through integrated education and training, so that an individual acquires the skills needed to transition to and complete postsecondary education and training programs, obtain and advance in employment leading to economic self-sufficiency, and to exercise the rights and responsibilities of citizenship;” and,

“whether the local areas in which the eligible provider is located have a demonstrated need for additional English language acquisition programs and civics education programs.”
Integrated English Literacy/Civics Education (IEL/CE)
SEC. 203 (12) INTEGRATED ENGLISH LITERACY AND CIVICS EDUCATION.

Integrated English Literacy and Civics Education (IEL/CE) is defined by the Workforce Investment and Opportunity Act (2014) as “education services provided to English language learners who are adults, including professionals with degrees and credentials in their native countries, that enables such adults to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. Such services shall include instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation, and may include workforce training.” (WIOA, Title II, Section 203.12)
SEC. 243. INTEGRATED ENGLISH LITERACY AND CIVICS EDUCATION.

SEC. 243. Integrated English Literacy/Civics Education for the first time specifies work and employment related goals. The new mandated work-related content has direct implications for career pathway programming.

- (c) GOAL.—Each program that receives funding under this section shall be designed to—
  
  (1) prepare adults who are English language learners for, and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency; and

- (2) integrate with the local workforce development system and its functions to carry out the activities of the program.

(WIOA, Title II, Section 243 (c) Goal)
Transition of Adult English Language Learners (ELLs) to the Workforce

Career Pathways and Bridge Instruction
WIOA Planning – Integrated English Literacy and Civics Education

• Implementation of contextualized literacy instruction that includes instruction:
  – in the four English language skills
  – in math
  – in financial literacy

• Implementing contextualized instruction programming that includes:
  – civics education content
  – adult citizenship education

• Assessing skills including:
  – the four English language skills
  – computation and math skills
  – civics knowledge and the rights and responsibilities of citizenship
WIOA Planning – Career Pathways

• Bridge instruction assists English language learners:
  – in building vocabulary
  – in conducting self-exploration and occupational exploration
  – in using the internet and other technology for career planning

• Bridge instruction for ELLs requires us to pay special attention to:
  – acknowledging their diverse educational and cultural backgrounds as they begin career pathway learning

• Assessing the skills, needs, goals, and ‘true abilities’ of:
  – your foreign-educated and
  – your highly-skilled immigrants so that they can further their education and training in your program/college
WIOA Planning – Integration with NCWorks Career Centers

• For the first time, WIOA requires work and employment related goals. We will need to work together as we:

  – prepare adult ELLs for unsubsidized employment in high-demand industries and occupations

  – integrate adult ELLs with the local workforce development system to carry out the activities of the program

Bridge programs assist students to obtain core skills through:

1) **Contextualized instruction** that integrates basic math, reading, and language skills and workplace knowledge.

2) **Career development** that includes career exploration, career planning within a career area, and understanding the world of work.

3) **Support/Transition services** provide students with the information and assistance they need to successfully navigate the process of moving from adult education to credit/non-credit programs.

Bridge programs prepare adults who lack adequate basic academic and/or English language skills to enter and succeed in post-secondary education and training, leading to career-path employment.

Bridge programs seek to enable students to advance both to better jobs and to further education and training, and thus are designed to provide a broad foundation for career-long learning on the job and for formal post-high school education and training. Bridge programs assist students in obtaining the necessary academic, employability, and technical skills.
