

The new NC Student Success Center serves as a resource hub for shared learning, technical assistance, idea generation, and policy advocacy for all 58 colleges to advance, scale, and sustain state-wide student success and completion efforts.

Funded entirely by grants from the Kresge Foundation, the Bill & Melinda Gates Foundation, and the John M. Belk Endowment, the NC Student Success Center joins a 13-state network, coordinated by Jobs for the Future, to focus on the national community college completion agenda.
