

College NC GPS Scale of Adoption Self-Assessment Project Timeline **REVISED**

Fully funded for all 58 colleges to participate

On March 28, 2018, the project will launch with an information webinar, followed by online assessment during April, coaching calls in May, June, and July, and college reports distributed in August. Based on these reports, the Center will organize regional professional development and technical assistance in 2018-2019 to advance the Guided Pathways to Success practices at colleges.

The new online assessment tool will be available in March 2018. Meanwhile, colleges may review a PDF of the tool [here](#).

Note: The original timeline has been revised so that software designers can resolve minor technical issues that other states have experienced with the online tool.

March 28, 2018	Webinar to launch project (Register here for the webinar.)
April 2018	Cross-divisional college teams complete online assessment
May-July 2018	Colleges receive feedback calls from GPS coaches
August 2018	College receive final reports with assessment results
August 2018	The Center announces 2018-2019 services and resources for colleges
