Goal: Sixty-seven percent (67%) of working-aged North Carolinians will have education and training beyond high school by 2025.

➤ **Budget Strategy 1: Improve student completion rates by investing in student supports (tutoring labs, supplemental instruction, etc.).**

- Recommendation: No new appropriation required
  - Retain in the community college budget funds that would otherwise be cut because FTE enrollment is below budgeted levels;
  - Use those funds to restore approximately $25 million of the $59 million management flexibility cut; and
  - Direct that colleges use these monies to fund locally-determined student supports that promote student completion.
- Research shows that students who successfully complete college-level “gateway” English and math courses are more likely to complete a credential, as these courses provide the foundation for success.
- Pilot projects have shown that providing students with additional supports outside the classroom leads to improved student outcomes in these courses.
- Measures:
  - Student success rates in gateway English and math courses
  - Curriculum student retention and graduation rates

➤ **Budget Strategy 2: “Close the Interest Gap” – Increase enrollment in key community college programs by promoting student and family awareness of North Carolina workforce needs and career paths.**

- Recommendation:
  - Appropriate $2 million to promote public awareness through various forms of media and by providing colleges user-friendly tools that puts labor market data at the fingertips of faculty, staff, and students.
  - Appropriate $10 million NR to ensure students are trained on up-to-date equipment and in modern facilities.
- Too often students and families are unaware of “middle-skill” job opportunities and career paths.
- Misconceptions are prevalent about the working conditions provided in key industries, such as manufacturing.
- Private foundation funds may be match State support for an awareness campaign.
• Measures:
  o Program enrollment data
  o Career and Technical Education (CTE) students’ earning gains (implementation planned for 2017)

➢ Budget Strategy 3: Support development of competency-based education (CBE) programs and a uniform system for granting credit for prior learning.
• Recommendation: Appropriate $500,000 NR
• The greatest inefficiency in education is requiring students to repeat material that they have already learned.
• The Competency-Based Education Incubator – a collaborative effort of partner colleges, the System Office, and national subject matter experts – is developing models that for scaling CBE programs system-wide.
• NCCCS and UNC-GA are partnering to develop an easily accessible, student-focused portal that includes information about the credit that a service member or veteran may receive in certificate, diploma, or degree programs at NCCCS and UNC institutions.
• Measures: Future CBE enrollments and credentials awarded; credits awarded based on prior learning.

➢ Budget Strategy 4: Support recruitment and retention of quality faculty and staff
• Recommendation:
  o Provide a 3% increase to community college employees. In combination with funds already budgeted, $24 million would help NC possibly surpass the average faculty salary in South Carolina and catch up with Tennessee.
  o Provide community colleges statutory flexibility to use performance-based carryforward funds to provide employee bonuses.
• Average faculty salaries in North Carolina, rank 11th out of 16 southeastern states. Our average salary of $47,400 equals only 90% and 81% of the SREB and national averages, respectively, per the 2015 SREB Fact Book.

Structural Budget Needs
• System Office staffing to support ConnectNC bond administration: $125,000
• Funds to support new multi-campus college locations: $1,035,822
  o Durham Tech CC (Orange County Campus)
  o Mitchell CC (Mooresville Campus)
  o Wake Tech CC (RTP Campus) – opening Fall 2017
• Unbudgeted, recurring IT costs: $470,528
