**College Recommendation**  
Course Revision Request  
BIO 094 Concepts of Human Biology

**Current Course With Proposed Revision Marked:**

<b>BIO 094</b>	<b>Concepts of Human Biology</b>	3	2	4
Prerequisites:	None			
Corequisites:	<del>RED-090</del> <b>ENG 095</b> or RED 090			

This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, body systems, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level anatomy and physiology courses.

***Proposed Change:***

- Change course corequisite

***Rationale of Requesting College:*** BIO 094 currently has a corequisite of RED 090. Since the *Combined Course Library* indicates that ENG 095 is a course that “integrates ENG 090 and RED 090,” taking ENG 095 should satisfy the corequisite for BIO 094.
