

## NORTH CAROLINA COMMUNITY COLLEGE SYSTEM

*Thomas A. Stith III*  
*President*

### NUMBERED MEMO CC21-042

**TO:** Admissions Officers, Continuing Education Officers, Public Information Officers, Human Resources Development, President's Assistants, Business Officers, Chief Financial Officers, Chief Academic Officers, Basic Skills Directors, Data Coordinators

**FROM:** President Dr. Pamela Senegal  
Chairperson, NCCCS Data Governance Committee

**SUBJECT: Request for Public Comment:** Data Standards for Course Section Location Types

**DATE:** August 27, 2021

---

To improve data quality for the North Carolina Community College System (NCCCS), the State Board of Community Colleges has charged the NCCCS Data Governance Committee (DGC) with approving systemwide data standards, including definitions for data elements used throughout NCCCS (see [1D SBCCC 400.4\(c\)](#)). In February 2021, the North Carolina Community College Data Governance Committee (DGC) initiated the process to adopt standard definitions and workflows for Course Section Location Types. The Committee has established definitions and workflows documented below and invites your comments prior to final approval.

Written comments for any of the standards listed below must be received no later than **5:00pm on September 14, 2021**. Comments can be sent to: [DGC@ncccommunitycolleges.edu](mailto:DGC@ncccommunitycolleges.edu). The DGC will review and address these comments prior to a final vote, and you will be notified of the same. If the DGC votes to adopt these standards, a future communication will notify colleges of the action and any associated implementation details.

### **Course Section Location Type Standards**

#### **Main Campus:**

Primary campus location in the community college service area where the college provides instruction, as designated by the Trustees of the college.

#### **Workflow guidance:**

- Establishment requires State Board approval [1B SBCCC 200.1](#). Once established, name changes require State Board notification [1B SBCCC 200.2](#).

- Any course section that has a Course Section Delivery Method of IN, and is not for Captive/Co-Opted groups, should be coded to the Main Campus.
- Main Campus is identified with a location type code that begins with a 1.
- Main Campus locations include “Main Campus” in the location type name.
- There is only one Main Campus per community college.

### **Multi-Campus Center (MCC):**

According to [1B SBCCC 200.3](#), “a Multi-Campus Center (MCC) is a convenience location in the community college service area to provide appropriate population and geographic access for community outreach, testing, faculty and staff offices, as well as literacy, continuing education, and curriculum instruction.” For the criteria for establishing Multi-Campus Centers, see [1B SBCCC 200.3](#).

### **Workflow guidance:**

- At MCCs, comprehensive instructional support functions including, but not limited to libraries and student development services, are parts of the operation.
- The MCC must provide students the opportunity to complete at least one associate degree at the MCC.
- The MCC must be at least ten (10) miles from the Main Campus or other MCC locations or the college must provide evidence that the MCC is established in a location where the Main Campus or other MCC locations cannot adequately provide community college programs and services. This provision only applies to MCCs established after the effective date of [1B SBCCC 200.3](#).
- Colleges shall obtain prior approval and maintain approval of the MCC from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). Programs and services provided through MCCs shall comply with The Principles of Accreditation: Foundation for Quality Enhancement of SACSCOC.
- County government provides support for maintenance and operation of the MCC physical plant.
- The college must demonstrate that they have developed an instructional program and services plan including, but not limited to a description of programs, staffing, and instructional support functions for the MCC.
- The MCC must enroll a minimum of 300 (curriculum, occupational extension, or basic skills) budget FTE via traditional, blended, or hybrid instruction originating from and delivered at that MCC location.
- The physical facility or facilities for the MCC must either be owned or leased on a long-term basis by the college as defined in the [NCCCS Capital Improvement Guide](#).
- Establishment requires State Board approval [1B SBCCC 200.3](#). Designation changes require State Board notification.
- MCCs are typically identified with a location type code that begins with a 2.
- MCCs include “Campus” in the location type name.

- For hybrid and blended instruction where the face-to-face instruction portion of the course occurs at the MCC, a building associated with the MCC location must be used for the online portion of the course.

### **Off-Campus Center (OCC):**

An Off-Campus Center (OCC) is a convenience location in the community college service area where the college provides instruction.

#### **Workflow guidance:**

- Does not meet all requirements in [1B SBCCC 200.3](#) for a Multi-Campus Center.
- Does not require curriculum instruction.
- The physical facility or facilities for the OCC must either be owned or leased on a long-term basis by the college as defined in the [NCCCS Capital Improvement Guide](#).
- Establishment does not require State Board approval but does require System Office notification.
- OCCs are identified with a location type code that begins with a 5.
- OCCs include “Center” in the location type name.
- For hybrid and blended instruction where the face-to-face instruction portion of the course occurs at the OCC, a building associated with the OCC location must be used for the online portion of the course.

### **High School Location:**

High School (HS) locations are high schools in the community college service area where the college provides instruction.

#### **Workflow guidance:**

- The focus is on the physical location of the instruction, not the students served.
- Can include public or private HS locations.
- HS locations are identified with a location type code of 9500. Specific HS locations can be built as locations associated with the location type of 9500.
- For hybrid and blended instruction where the face-to-face instruction portion of the course occurs at the HS location, a building associated with the HS location must be used for the online portion of the course.

### **Captive/Co-Opted Facilities:**

Captive/Co-Opted facilities are locations in the community college service area that serve Captive/Co-Opted groups as defined by State Board Code [1D SBCCC 700.98](#) where colleges provide instruction. Colleges may provide instruction to both Captive/Co-Opted (e.g., inmates, patients) and Non-Captive/Co-Opted (e.g., staff) groups at these locations.

**Federal Prison (FED):** A facility operated under the jurisdiction of the federal government for the confinement of inmates.

**State Prison (DPS):** A facility operated under the jurisdiction of North Carolina’s Department of Public Safety (NCDPS) for the confinement of inmates.

**Juvenile Detention Center (JDC):** A facility operated by the NCDPS Juvenile Justice section to temporarily house youths alleged to have committed a delinquent act or to be a runaway. Youths are generally placed in a juvenile detention center while awaiting a court hearing, or until another placement can be found, either in a community-based program or service or in a youth development center.

**Youth Development Center (YDC):** A facility operated by the NCDPS Juvenile Justice section to provide education and treatment services to prepare committed youth to successfully transition to a community setting. This type of commitment is the most restrictive, intensive dispositional option available to the juvenile courts in North Carolina. The structure of the juvenile code limits this disposition to those juveniles who have been adjudicated for violent or serious offenses or who have a lengthy delinquency history.

**Local Jail or Detention Center:** A facility operated by one or more units of local government (city, county, or region) for the confinement of inmates.

**Private Treatment or Rehabilitation Center:** A privately operated treatment or rehabilitation center in the community college service area where the college provides instruction. Per State Board Code [1D SBCCC 700.98](#) these facilities may serve clients of sheltered workshops, patients in domiciliary care facilities, nursing facilities, or mental retardation centers; in and out-patients of substance abuse rehabilitation centers, and in-patients of psychiatric hospitals.

**Workflow guidance:**

- Requires System Office Application (see [KB0010400](#)) and State Board approval. Note: All colleges have received approval to offer BSP and HRD courses in Jail locations (see [Course of Instruction to Captive/Co-Opted Groups](#)).
- Any instruction that happens for Captive/Co-Opted groups, regardless of Course Section Delivery Method, should be coded to a Captive/Co-Opted facility location type.
- Applicable course sections must also be coded to include an approved immured group code.
- For hybrid and blended instruction where the face-to-face instruction portion of the course occurs at the Captive/Co-Opted facility, a building associated with the Captive/Co-Opted location must be used for the online portion of the course.

**Other Community Location:**

Other Community Locations are convenience locations in the community college service area where the college provides instruction that does not meet the definition of a Multi-Campus Center, Off-Campus Center, High School, or Captive/Co-Opted facility. Other Community Locations are identified with a location type code of 9000.

**Workflow guidance:**

- For hybrid and blended instruction, where the face-to-face instruction portion of the course occurs at the Other Community Location, a building associated with the Other Community Location must be used for the online portion of the course.

**Course Sections Delivered in Multiple Locations**

For course sections that are taught in multiple locations, colleges must assign the location where majority (>50%) of the course is delivered.

If a course section is delivered equally between locations (50/50), the following priority order should be used to assign a primary location:

1. Main Campus
2. Multi-Campus Center
3. Off-Campus Center
4. High School Location
5. Captive/Co-Opted Facilities
6. Other Community Location

Example: Multi-Campus center will be the primary location for a course that is taught equally between at a Multi-Campus Center and a High School.

**College Location Codes**

At the end of the memo, there is an attached sheet containing all active location codes by college.

<b>College Code</b>	<b>College Name</b>	<b>Class Location Code</b>	<b>Class Location Description</b>	<b>SO Class Location Category</b>
800	South Piedmont CC	1002	South Piedmont CC Main Campus	Main Campus
800	South Piedmont CC	2021	South Piedmont CC Old Charlotte Hwy West Campus	Multi-Campus Center
800	South Piedmont CC	4575	Anson Correctional Institution	State Prison (DPS)
800	South Piedmont CC	5006	South Piedmont CC Lockhart-Taylor Wadesboro Center	Off-Campus Center
