3 trustees consistent with this chapter.
- 4 (b) Colleges shall provide students through publicly-available means information about all

12 **1E SBCCC 200.2 Time Due, Deferred Payment, Failure to Pay**

13 (a) Time Due. If a student registers on or before the first date of a course section, tuition,
14 registration fees, and other fees required for enrollment are due on a specific date prescribed
15 by the college that is on or before the first date of the course section. If a student registers after
16 the first date of the course section, tuition, registration fees, and other fees required for
17 enrollment are due at the time of the student's registration. A student may satisfy the
18 requirement for payment due through one or more of the following four methods:

- 19 (1) Directly paying the college.
20 (2) Demonstrating to the college's satisfaction that the student is eligible for financial aid or
21 other third-party payment.
22 (3) Entering into a deferred payment plan authorized by 1E SBCCC 200.2(b).
23 (4) Providing evidence of eligibility for a tuition or registration fee waiver consistent with 1E
24 SBCCC 800.

25 To ensure tuition receipts are deposited to the credit of the fiscal year in which the Fall
26 academic term occurs, colleges shall begin collecting curriculum tuition payments for the
27 Fall academic term on or after July 1 of that year.

28 (b) Deferred Payment. The college may, with approval of the board of trustees, prescribe written
29 procedures to permit short-term deferred payment or payment in installments; provided,
30 however, that payment in full is due by the end of the academic term. For the purposes of this

1 section, "short term" is defined as a period that does not extend beyond the last day of the
2 academic term.

3 (c) Failure to Pay. Unless otherwise prohibited by law, colleges may not enroll or distribute an
4 academic credential to a student with an outstanding balance for tuition or registration fees
5 except under the following circumstances:

6 (1) The college anticipates that the outstanding balance will be paid using pending financial
7 aid; or

8 (2) A person or organization demonstrates to the satisfaction of the college the ability to pay
9 the outstanding obligation and guarantees in writing to pay the balance if the student fails
10 to do so.

11 Unless otherwise prohibited by law, colleges may withhold transcripts of grades and any
12 other service pending resolution of outstanding monetary obligations. This statement shall
13 not be construed to prohibit a college's board of trustees from adding more stringent
14 provisions that are allowable under law regarding outstanding monetary balances.

19 **SUBCHAPTER 300. CURRICULUM TUITION**

20
21 **1E SBCCC 300.1 Tuition for Curriculum Programs**

22 (a) Tuition Rates. The State Board shall set a uniform tuition rate per credit hour and a maximum
23 tuition amount per academic term for resident and non-resident students consistent with actions
24 taken by the General Assembly.

25 (b) Tuition Required. Colleges are required to charge students tuition to enroll in a curriculum
26 course that earns Budget FTE as described in 1G SBCCC 100.99. Students are required to pay
27 tuition, or have a third-party pay on their behalf, to enroll in a curriculum course, unless waived
28 by law. See also 1E SBCCC Subchapter 800.

29 (c) Tuition for Student Enrolled in More than One College. If a student enrolls for the same
30 academic term at two or more community colleges, the student may pay the total amount of
31 tuition and registration fees to the student's "home" college, at the discretion of the "home"

1 college. For the purposes of this section, "home" college means the college in which the
2 student initially enrolls for the academic term. The "home" college shall work with the other
3 college or colleges in which the student is enrolled to ensure the student is not charged more
4 tuition than the maximum allowed by the State Board for the academic term. Student
5 membership hours as defined in Chapter G for instruction received shall be reported by the
6 college in which the respective instruction occurred.

7 (d) Deposit of Tuition. All tuition receipts are State funds. Colleges must deposit all tuition
8 receipts to the credit of the State Treasurer, consistent with State law.

13 **1E SBCCC 300.2 Family Relocation Tuition**

14 (a) As provided by G.S. 115D-39(a), community colleges may charge resident tuition rates to
15 nonresident students who are members of families that were transferred to this state by
16 businesses, industries, or civilian families transferred by the military, for employment. Prior
17 to enrollment at the resident tuition rate, the nonresident student shall fulfill the following
18 conditions:

- 19 (1) Demonstrate that his or her family moved to this state within the 12 months preceding
20 enrollment;
- 21 (2) Present a letter to the college from the employer on corporate letterhead stating that the
22 employee, through whom the student claims this benefit, relocated to this state for
23 employment with that business, industry, or military establishment;
- 24 (3) Present proof of his or her familial relationship with the employee, unless the student is the
25 employee;
- 26 (4) Present proof that the student lives in the same house with the employee, unless the student
27 is the employee;
- 28 (5) Present proof that the student is financially dependent on the employee through which the
29 student claims this benefit, unless the student is the employee; and
- 30 (6) Comply with the requirements of the Selective Service System, if applicable.

- 1 (b) The number of students at a college eligible for resident tuition under this Rule in a given
2 academic year shall not exceed one percent of the average number of nonresident students,
3 rounded up to the next whole number, enrolled at the college during the preceding academic
4 year. If a college charges resident tuition to students eligible under this section, eligible
5 students shall be granted this benefit on a first-come, first-served basis.
- 6 (c) Each local board of trustees shall adopt and publish a written policy specifying whether the
7 college will charge resident tuition rates to nonresident students who satisfy the provisions of
8 this section. If a local board of trustees adopts a policy that allows the college to charge
9 resident tuition rates to nonresident students who satisfy the provisions of this section in some
10 instances and not in others, the local board of trustees' policy shall specify the factors the
11 college will use to determine when to grant the resident tuition rate and when to deny the
12 resident tuition rate.

21 continuing education courses based on course length, consistent with actions taken by the
22 General Assembly.
- 23 (b) Registration fee required. Colleges are required to charge students a registration fee to enroll
24 in a continuing education course section that earns budget FTE as described in 1G SBCCC
25 100.99. Students are required to pay a registration fee, or have a third-party pay on their behalf,
26 to enroll in a continuing education course, unless waived by law. See also 1E SBCCC

- 8 establish a uniform fee charged to students taking an adult high school equivalency test
- 9 administered at a community college. The adult high school equivalency testing fee is
- 10 separate and in addition to the fee, if any, charged by and retained by a third-party entity under
- 11 contract with the System Office to provide the adult high school equivalency test.
- 12 (b) Required Payment. Students must pay the adult high school equivalency testing fee prior to
- 13 taking any test within the adult high school equivalency test battery.
- 14 (c) Deposit of Fees. All adult high school equivalency testing fee receipts are State funds.

21 **SUBCHAPTER 600. SELF-SUPPORTING COURSE SECTIONS**

22
23 **1E SBCCC 600.1 Definitions**

24 The following definitions apply to this Subchapter:

- 25 (a) “Direct costs” - The costs required to provide an instructional course section. Examples of
- 26 direct costs include, but are not limited to, instructor salaries and salary-related benefits (i.e.
- 27 retirement contributions, health insurance, etc.), travel to and from the instructional site, course
- 28 curriculum development costs, instructional supplies, equipment, building rental, insurance,
- 29 advertising, printing, postage, mailing costs, and any other costs specifically related to the
- 30 course section. Refreshments and meals may be included as a direct cost if disclosed to
- 31 potential students prior to the start of the course section.

- 1 (b) “Indirect costs” – The costs associated with activities and services that support instruction, but
- 2 which cannot be exclusively assigned to a course section. Examples of indirect costs include,
- 3 but are not limited to, student services, administrative costs, utilities, custodial services, and
- 4 security services, which cannot be exclusively assigned to a course section.
- 5 (c) “Self-supporting” - Funding the direct and indirect costs of a course or set of courses through
- 6 receipts collected from students or from a third-party on behalf of students enrolled in the
- 7 course or set of courses.

11
12 **1E SBCCC 600.2 Authority to Charge Self-supporting Fees**

- 13 (a) Authority to Charge. Colleges are authorized to offer curriculum and continuing education
- 14 course sections on a self-supporting basis and charge self-supporting fees to students who
- 15 enroll in self-supporting course sections.
- 16 (b) Local Policy. The board of trustees shall adopt a policy regulating self-supporting activities
- 17 prior to a college offering self-supporting course sections. This policy shall include, at
- 18 minimum, the following elements:
 - 19 (1) The method the college must use to determine self-supporting fee rates, and
 - 20 (2) The permissible uses of excess funds generated from self-supporting activities.

24
25 **1E SBCCC 600.3 Self-supporting Fee Rates**

- 26 (a) A college shall set all self-supporting fees consistent with the policy adopted by its board of
- 27 trustees. A college may adopt different self-supporting fees for different courses and activities,
- 28 subject to the limitations established by this subsection.
- 29 (b) Curriculum Self-Supporting Fee Rates: Colleges shall determine self-supporting fees for
- 30 curriculum courses using one of the following two methods of calculation:

1 (1) Pro-rata Share Method. The amount charged to each student shall approximate the pro-rata
2 share of the direct and indirect costs associated with providing self-supporting instruction.
3 Unless the college can demonstrate a need for a higher rate, a college may estimate indirect
4 costs by applying its federal indirect cost rate or a rate up to 25%, whichever is higher, to
5 the direct costs of providing the self-supporting activity. The amount charged to the student
6 shall be calculated based on either 1) the estimated costs of an individual self-supporting
7 course section divided by the number of students expected to enroll in the course section
8 or 2) the estimated costs of a set of self-supporting course sections divided by the number
9 of students expected to enroll in the set of course sections. Each student must pay the self-
10 supporting fee even if the sum of the curriculum tuition and self-supporting fees charged
11 to the student for the academic term exceeds the maximum tuition rate set by the State
12 Board and academic term.

13 (2) Transparent Rate Method. The college shall charge each student an amount consistent with
14 the curriculum tuition rate based on residency status. The transparent rate method shall
15 only be used if the receipts generated through this method can adequately support the direct
16 and indirect costs of the self-supporting instruction.

17 (c) Continuing Education Self-Supporting Fee Rates: Colleges shall set self-supporting fees for
18 continuing education course sections at a level at or below the local market rate for the type
19 of continuing education instruction provided.

23

24 **1E SBCCC 600.4 Deposit and Use of Self-supporting Fees**

25 (a) Deposit of Self-Supporting Fees. Colleges shall deposit self-supporting fee receipts in an
26 institutional unrestricted general ledger account. Any course section initially designated as
27 self-supporting cannot be changed to a State-funded designation after the college collects any
28 receipts for the course section.

29 (b) Use of Self-Supporting Fee Receipts. Self-supporting fee receipts shall be used to support the
30 direct and indirect costs of the self-supporting course sections. Colleges shall not use state
31 funds for direct costs of self-supporting course sections. If a full-time faculty member teaches

1 a self-supporting course section, colleges shall either 1) pro-rate the faculty salary based on
2 the time allocated between state-funded and self-supporting course sections in the faculty
3 member’s course load, or 2) reimburse State funds an amount equal to the number of
4 instructional hours associated with self-supporting course section multiplied by the
5 instructor’s hourly rate of pay.

6 (c) Excess Receipts. If self-supporting receipts exceed expenditures for the fiscal year, colleges
7 shall use excess receipts to either support the costs of future self-supporting course sections
8 or to support costs authorized by 1E SBCCC 700.7.

13 **SUBCHAPTER 700. LOCAL FEES**

14
15 **1E SBCCC 700.1 General Provisions**

16 (a) Authority to Charge. Colleges are authorized to charge local fees that are established by the
17 local board of trustees under the provisions of this Subchapter.

18 (b) Local Policy. The local board of trustees must establish all local fees and adopt policies
19 governing the use of local fee receipts, consistent with this Subchapter.

20 (c) Deposit and Use of Local Fees. Colleges shall deposit receipts derived from local fees in an
21 unrestricted institutional account. Colleges shall use local fee receipts only for the purposes
22 for which the fee was approved by the local board of trustees, consistent with this
23 Subchapter.

24 (d) Local Fees Charged to Students Attending More than one College: If a student enrolls for the
25 same semester at two or more colleges of the system, the student shall pay local fees required
26 by each institution, as prescribed by the colleges’ local fee policies.

27 (e) Annual Reporting Requirement. The college shall report all required local fees established by
28 the board of trustees to the System Office on an annual basis as directed by the System
29 Office.

3 **1E SBCCC 700.2 Student Activity Fees**

4 (a) Student Activity Fee Rates. The local board of trustees is authorized to establish a fee
5 charged to students to support student activities. The student activity fee shall not exceed \$35
6 per academic term. Student activity fees shall not be charged to individuals who participate
7 only in meetings or seminars organized by the college. For the purposes of this Subchapter,
8 “meeting or seminar” means a group of people gathered on a one-time basis primarily for
9 discussion under the direction of a leader or resource person(s).

10 (b) Use of Student Activity Fee Receipts: Colleges shall use student activity fee receipts to
11 support the cost of providing student activities, excluding those activities listed in sub-
12 subsection (3) below.

13 (1) Permissible Activities: For the purposes of this section, “student activity” means an
14 activity that is provided primarily for the benefit of students and whose participants are
15 primarily students, excluding instruction for which students pay tuition and registration
16 fees. Examples of student activities include the following:

- 17 (A) student centers;
- 18 (B) student government associations;
- 19 (C) student clubs;
- 20 (D) student enrichment and student social activities;
- 21 (E) student identification cards;
- 22 (F) student athletics;
- 23 (G) student health services; and
- 24 (H) student accident insurance

25 (2) Permissible expenses: In support of student activities, the college may use student
26 activity fee receipts to support the following types of expenses:

- 27 (A) College personnel directly providing student activities, such as student government
28 association staff, student activity coordinators, coaches, club sponsors, or club
29 advisors;
- 30 (B) Stipends or scholarships to students who serve as officers of student organizations;
- 31 (C) Employee and student travel to student activities held at off-campus locations;

- 1 (D) Other purchased goods or services needed to conduct the student activity;
- 2 (E) Equipment, including vehicles, used directly for student activities;
- 3 (F) Capital improvement projects constructed for student activities, such as student
- 4 centers, student lounges, and athletic facilities. If a capital improvement project
- 5 serves multiple purposes, student activity fee receipts may be used to support capital
- 6 expenditures in proportion to the square footage of the project dedicated to student
- 7 activities.

8 (3) Impermissible expenses: Colleges shall not use student activity fee receipts to support
9 personnel and other operating costs related to college employees having positions that are
10 the fiscal responsibility of the State or local governments and do not directly support
11 student activities, including, but not limited to, academic advisors, counselors, recruiters,
12 admissions staff, and security personnel. Colleges shall not use student activity fee
13 receipts for capital improvements projects constructed for purposes other than student
14 activities.

19 **1E SBCCC 700.3 Instructional Technology Fees**

- 20 (a) Fee Rates. The local board of trustees is authorized to establish a fee charged to students to
21 support student access to instructional technology. The instructional technology fee shall not
22 exceed \$48 per academic term for curriculum students and \$5 per course for continuing
23 education students. However, subject to the prior approval of the SBCC, local boards of
24 trustees have the authority to establish an instructional technology fee that exceeds the \$48
25 per academic term for curriculum students. Instructional technology fees shall not be
26 charged to individuals who participate only in meetings or seminars.
- 27 (b) Use of Fee Receipts. Instructional technology fee receipts shall be used to support costs of
28 procuring, maintaining, and operating instructional technology, including both information
29 technology (hardware and software) used primarily for instructional purposes and specialized
30 instructional equipment necessary for hands-on instruction. Colleges are authorized to use
31 instructional technology fee receipts to hire support positions to operate, maintain, and repair

1 this technology, as well as buy the necessary supplies and materials for operations.
2 Instructional technology fee receipts shall not be used to purchase computers and other
3 technology used primarily by college employees, nor may instructional technology fee
4 receipts be used to support positions that do not directly support this instructional technology.

12 (b) Use of CAPS Fee Receipts. CAPS fee receipts shall only be used to support costs of acquiring,
13 constructing, and maintaining the college’s parking facilities, parking enforcement, and
14 security of college property. Security costs include, but are not limited to, salaries, related

23 required academic costs for consumable goods or services that are specifically required for a
24 course. Such academic costs include, but are not limited to, tools, uniforms, insurance,
25 certification/licensure fees, e-text, lab and other consumable supplies. The local board of
26 trustees shall set specific fee rates based on the estimated cost of providing the good or service.
27 (b) Use of Specific Fee Receipts. Specific fee receipts shall be used for the purposes for which
28 they are charged. If specific fee receipts exceed expenditures for the purposes for which they
29 are charged, the college must expend the excess receipts consistent with the provisions outlined

7 Examples include, but are not limited to, student health and other insurance fees, graduation
8 fees, transcript fees, optional assessment fees, library/equipment replacement fees, and fees to
9 participate in a specific event or activity. The local board of trustees shall set other fee rates
10 based on the estimated cost of providing the good or service.

11 (b) Use of Fee Receipts. Other fee receipts shall be used for the purposes for which they are

SUBCHAPTER 800. WAIVERS

1E SBCCC 800.1 Definitions

The following definitions apply to this subchapter:

- (a) "Tuition and Registration Fee Waiver" - A waiver that exempts an individual from paying curriculum tuition or continuing education registration fees that would otherwise be required to enroll in a course and deposited with the State Treasurer. The amount waived represents revenue foregone by the State. A tuition and registration fee waiver shall not be construed to mean inclusion of any other fees or charges (i.e. local fees, textbooks/supplies, and insurance) that are required for enrolling in a course or program. The amount charged to students who qualify as a resident for tuition purposes pursuant to G.S. 115D-39 and G.S. 116-143 is not a tuition waiver for the purposes of this Subchapter.
(b) "Authorized Group or Organization" - A category of students or organizations that are authorized by law to be granted a tuition or registration fee waiver.
(c) "Eligible Training" - Training that the State Board of Community Colleges has approved that is eligible to be waived for a specific authorized group, consistent with law.

History Note: Authority G.S. 115D-5; G.S. 115D-39

Eff. May 16, 2014

1E SBCCC 800.2 General Provisions

- (a) Authority to waive. Colleges shall waive tuition and registration fees for eligible training provided to members of groups and organizations that are expressly authorized by law. The waiver of local fees shall be governed by local boards of trustees.
(b) Admission Requirements. Persons in an authorized group or organization must meet the same admission requirements as students that are not in an authorized group to enroll in courses for which the student is eligible for a waiver.
(c) Proof of Eligibility. To obtain a waiver, individuals must establish proof of eligibility as a member of an authorized group or organization. To be eligible for a tuition or registration fee

1 waiver, trainees enrolled in Basic Law Enforcement Training (BLET) courses must obtain a
2 letter of sponsorship from a state, county, or municipal law enforcement agency prior to
3 enrollment and uphold the terms of the sponsorship until completion of the BLET course.
4 The college must maintain documentation of the sponsorship on file.

5 (d) Reporting FTE: Unless otherwise prohibited by law, students eligible for an authorized
6 waiver shall be counted in the computation of enrollment for funding purposes (BFTE) in a
7 manner consistent with non-waived students, assuming all applicable reporting requirements
8 are met.

9 (e) Self-Supporting Courses: Community colleges shall not grant tuition and registration fee
10 waivers to students enrolled in self-supporting courses. The community college shall charge
11 the student the self-supporting fee or use institutional funds to pay for the self-supporting fee
12 on the student’s behalf.

13 (f) Annual Reporting Requirement. As directed by the System Office, the college shall report
14 the amount of tuition and registration fees waived by the college on behalf of individuals
