**PRESIDENT'S REPORT TO THE STATE BOARD OF COMMUNITY COLLEGES**

President Ralls thanked the board members for their kind words. He said he does not like goodbyes and will have a few more board meetings before he leaves, however many board members are going off the board after this meeting. No one should underestimate the accomplishments and impact of the members going off the board, and the board as a whole. The eight members who are leaving the board have over 40 years of service to this board and over 100 years of service to the community college system. There are so many big things that the board does and are done with such regularity, we need to reflect on the impact. The community colleges are pathway colleges, so the agreement that was approved today was another pathway for our students. There were twice as many students this year that took the college success course than the previous year. Students graduated this year utilizing the reverse transfer. The impact of the board members and the partnerships shared within North Carolina are important. This has been a board of accomplishments, a board of action, and a board of impact.
