

STATE BOARD OF COMMUNITY COLLEGES

Curriculum Program Terminations
As Approved by the System President

The System President has approved the terminations as listed below:

Beaufort County Community College

Accounting (A25100)

Rationale: Low enrollment: The enrollment has declined over the past few years due to the increased use of accounting software by businesses in the colleges' service area. The college will continue to offer accounting courses under the Business Administration (A25120) program.

Termination Semester: **Fall 2015**

Lenoir Community College

Central Sterile Processing (Certificate) (C45180)

Rationale: No Enrollment: The college received approval for the Central Sterile Processing program during Reengineering, however they never activated the program.

Termination Semester: **Fall 2014**

Manicuring/Nail Technology (Certificate) (C55400)

Rationale: No Enrollment: On 11/30/96, the State Board approved the Manicuring/Nail Technology (C55400) as a new program and provided automatic program approval for colleges that were approved for the Cosmetology program. The college never activated the Manicuring/Nail Technology program.

Termination Semester: **Fall 2014**

School-Age Education (A55440)

Rationale: No Enrollment: On 11/21/08, this program was converted from the Early Childhood Education/Teacher Associate (A5522B) program into the School-Age Education (A55440) program. The college never implemented the revised program. The college developed a School-Age focus option within their Early Childhood Education program.

Termination Semester: **Fall 2014**

Mayland Community College

Practical Nursing (Diploma) (D45660)

Rationale: Employment opportunities in the region have declined because local hospitals and nursing homes are no longer hiring Practical Nurses. Instead, these employers use RNs or CNAs to meet their workforce needs. The college has increased their enrollment in the Associate Degree Nursing program.

Termination Semester: **Fall 2014**
