

STATE BOARD OF COMMUNITY COLLEGES
Curriculum Program Terminations As Approved by the System President

Information: The System President has approved the terminations as listed below:

Background: 1D SBCCC 400.95(b) states the following: *The college shall terminate a curriculum program when there has been no enrollment for two years; a college may request an one-year extension of a curriculum program upon justification of the potential for employment opportunities and student enrollment.*

Beaufort County Community College

Construction Equipment Systems Technology (A60450)

Rationale: Low enrollment: There was a lack of student interest for the curriculum program due to the decline in construction and poor employment opportunities. The college will continue to monitor the construction equipment repair industry for changes that can be supported by short-term training through continuing education.

Termination Semester: **Fall 2018**

Central Piedmont Community College

Geospatial Technology (A40220)

Rationale: Low enrollment: There has been declining student interest for the Geospatial Technology as well as the college's Geomatics Technology program. Since the programs have overlapping competencies, the college decided to combine relevant program competencies and include them in their Geomatics Technology program, which they will continue offering.

Termination Semester: **Fall 2017**
