Background: The curriculum program application process requires the submission of a *Three Year Accountability Report* (i.e. three years after program implementation) which must include information on enrollment, completers, employment, licensure/accreditation, and program outlook. *A copy of the required report information is attached.*

This requirement was approved by the State Board of Community Colleges on August 16, 2012 with an implementation date of October 1, 2012. Therefore, any non-transfer curriculum program application (special, fast track for action [FTFA] or new-to-the-system) approved by the State Board of Community Colleges or the System Office President after October 1, 2012 requires the submission of the accountability report three years after program *implementation*.
