

**STATE BOARD OF COMMUNITY COLLEGES**

**Curriculum Program Termination Approved by the System President**

**Information:** The System President has approved the program termination listed below:

**Background:** 1D SBCCC 400.6 (b) states the following: *The college shall terminate a curriculum program when there has been no enrollment for two consecutive years or if the college has not offered the program or has not had enrollment in the program within two years of the date the program was approved by the State Board of Community Colleges. A college may request a one-year extension of a curriculum program upon justification of the potential for employment opportunities and student enrollment.*

**Brunswick Community College**

Phlebotomy (Certificate) (C45600)

**Rationale:** Low Enrollment. Termination is approved due to declining course enrollment over the last several years with only 4 students currently interested in enrollment. The program will shift to Continuing Education and Economic Workforce Development courses. Area employers are not currently requiring students to complete an accredited program causing a decline in student enrollment.

Termination Semester: **Spring 2020**

**Isothermal Community College**

Office Administration (A25370)

**Rationale:** Low Enrollment. The industry in the service area of the college is seeking office administration professionals with more business administration and management skills. The college will offer the Office Administration courses as a Subject Area (Track under the Business Administration (A25120) Program).

Termination Semester: **Fall 2019**
