

STATE BOARD OF COMMUNITY COLLEGES
Cooperative Innovative High School Applications

Request: At the request of staff, the State Board of Community Colleges is asked to approve the applications for new Cooperative Innovative High Schools (CIHS) for the 2017-2018 school year. The list of CIHS applications seeking approval are indicated in the chart on the next page.

Background: During the 2011 legislative session, the General Assembly established the following criteria to define a cooperative innovative high school (G.S. 115C-238.50A):

- a) It has no more than 100 students per grade level;
- b) It partners with an institution of higher education to enable students to concurrently obtain a high school diploma and begin or complete an associate degree program, master a certificate or vocational program, or earn up to two years of college credit within five years
- c) It is located on the campus of the institution of higher education, unless the governing Board . . . specifically waives the requirement through adoption of a formal resolution.

Rationale: New cooperative innovative high school (CIHS) applications are submitted to the North Carolina Department of Public Instruction. CIHS Applications are reviewed by the Joint Advisory Committee (JAC), which includes members from the North Carolina Department of Public Instruction, the North Carolina Community College System, and the University of North Carolina General Administration. Representatives from North Carolina New Schools also attend the JAC meetings, but are not voting members of the JAC.

Once JAC members review each of the cooperative innovative high school applications, recommendations for application approvals are sent from the JAC to the State Board of Education. New cooperative innovative high schools (CIHS) must be approved by the State Board of Education and then are sent to the State Board of Community Colleges for approval. New CIHS applications were presented to the State Board of Education for information at their December meeting and are anticipated to be approved at their January 4-5, 2017 meeting. Cooperative innovative high school applications also now include location waivers if the school is not located on a community college campus.
