

STATE BOARD OF COMMUNITY COLLEGES
Curriculum Program Termination as Approved by the System President

Information: The State Board of the North Carolina Community College System, through delegated authority to the System President, approved the program termination listed below:

Background: 1D SBCCC 400.6 (b) states the following: *The college shall terminate a curriculum program when there has been no enrollment for two consecutive years or if the college has not offered the program or has not had enrollment in the program within two years of the date the program was approved by the State Board of Community Colleges. A college may request a one-year extension of a curriculum program upon justification of the potential for employment opportunities and student enrollment.*

Beaufort County Community College

Electronics Engineering Technology (A40200)

Rationale: No Enrollment. There has been a lack of student interest in the program which has resulted in no enrollment in the past two years. BCCC will continue to offer its Electrical Engineering Technology (A40180) program.

Termination Semester: **Fall 2021**
