

STATE BOARD OF COMMUNITY COLLEGES
Combined Course Library - Continuing Education

New Course Approvals, Modifications, and Tier Designations

The State Board is asked to approve the following courses for placement in the Combined Course Library (CCL).

Request #1 of 1 (Modification)

Course ID	Course Title	Recommended Hours	Program Area	Tier Designation
PHM-3250	Pharmacy Technician	From 90 to 140	L30 - Health	2

Rationale:

- This is a request to increase the recommended hours to 140 to reflect credential changes driven by the national credentialing agency (Pharmacy Technician Certification Board). This course is designed to provide instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, outpatient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.
