

STATE BOARD OF COMMUNITY COLLEGES

**Health Science: Therapeutic and Diagnostic Services (Diploma)
Program Majors As Approved by the System President**

On October 18, 2013, the State Board of Community Colleges approved the Health Science: Therapeutic and Diagnostic Services (Diploma). The Health Science Curriculum Standard provides the following:

1. a pre-health science code so accurate data can be captured on pre-health science students,
2. an additional Career and College Promise pathway option for high school students interested in entering one of the health science programs within the community college system,
3. a technical core and career pathway that would provide the graduate with the skills needed for an entry-level job in health care, and
4. six program majors which will qualify for Perkins funding since they lead to a creditable workforce credential.

Since the approval of the Health Science:Therapeutic and Diagnostic Services (Diploma), the System President has approved the following program majors listed below.

Beaufort County Community College

Nursing Assistant (Diploma) (D45930)

Bladen Community College

Nursing Assistant (Diploma) (D45930)
