

STATE BOARD OF COMMUNITY COLLEGES

**CURRICULUM PROGRAM APPLICATION
(Existing Program)**

The State Board will be asked to approve the curriculum program at the college listed on the condition that equipment funds are available to the college and operating funds generated by the budget formula will permit the offering of this program without any special allocation of funds.

**PROGRAM APPLICATION
SUMMARY EVALUATION REPORT
Stanly Community College
Emergency Medical Science (A45340)**

I. Program Planning

Stanly Community College is seeking approval for the Emergency Medical Science (A45340) program to begin Summer 2015. The planning area is defined as the college's service area of Stanly County in addition to Montgomery County. All colleges were notified of the planning process for this program.

The proposed program was approved by the Board of Trustees at Stanly Community College on April 10, 2014. Minutes from this Board meeting were attached to the program application. The President and the Board of Trustees of Stanly Community College have certified the following:

- The proposed program will enhance the workforce of North Carolina, will provide educational and training opportunities consistent with the mission of the college, and will not duplicate the opportunities currently offered.
- They have assessed the need for the proposed program and the resources required to maintain a viable program and certify that the college can operate the proposed program efficiently and effectively within the resources available to the college.
- The college will complete a program accountability report including student success measures, enrollment trends, completion rates, and employment data three years after implementation of the program.

II. Program Rationale

Stanly Community College (SCC) indicates the following:

- SCC has offered Emergency Medical Science (EMS) training in the continuing education division for a number of years. Completers are eligible for entry-level emergency medical technician (EMT) and paramedic positions.
- SCC has the resources (personnel, equipment, facilities, and clinical placements) available to implement the proposed program.
- SCC is working towards the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) accreditation. Offering the associate degree program may assist SCC with gaining national accreditation. CoAEMSP accreditation is required for students to test for National Registry and many advanced paramedic provider services require Nationally Registered Paramedics for employment.
- A survey completed by SCC determined Stanly and Montgomery County employers were projecting twenty full-time job openings in 2014, twenty-one full-time job openings for the first graduating class, and twenty-one full-time job openings for the second graduating class.
- The U.S. Bureau of Labor Statistics predicts that "employment of emergency medical technicians and paramedics is expected to grow by thirty-three percent from 2010 to 2020. Data from the NC Department of Commerce coincides with the national data indicating an increase of approximately thirty-one percent.

III. Impact of the Proposed Program on Other Programs

Twenty-six community colleges are approved to offer the Emergency Medical Science program. An impact assessment was sent to each college. Initially, South Piedmont Community College expressed objections due to clinical sites that may be utilized by SCC. This issue has been resolved and the objection has been removed.

IV. Implementation of Collaborative Plan

Not Applicable

V. Curriculum Design

The proposed program of study is in compliance with the State Board approved curriculum standard.

Coordinator: Ms. Renee Batts

C. Institutional Certification: Complete the following form and obtain required signatures. Form with original signatures should be included in the application.

Institutional Certification

This curriculum program Associate Degree in Emergency Medical Science A45340

CURRICULUM STANDARD

Effective Term
Spring 2014
[2014*01]

Curriculum Program Title	Emergency Medical Science	Program Code	A45340
Concentration	(not applicable)	CIP Code:	51.0904

Curriculum Description

The Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include providers of emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

*Curriculum Requirements**

[for associate degree, diploma, and certificate programs in accordance with ID SBCCC 400.97 (3)]

- I. General Education.** Degree programs must contain a minimum of 15 semester hours including at least one course from each of the following areas: humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics. Degree programs must contain a minimum of 6 semester hours of communications. Diploma programs must contain a minimum of 6 semester hours of general education; 3 semester hours must be in communications. General education is optional in certificate programs.
- II. Major Hours.** AAS, diploma, and certificate programs must include courses which offer specific job knowledge and skills. Work-based learning may be included in associate in applied science degrees up to a maximum of 8 semester hours of credit; in diploma programs up to a maximum of 4 semester hours of credit; and in certificate programs up to a maximum of 2 semester hours of credit. *(See second page for additional information.)*
- III. Other Required Hours.** A college may include courses to meet graduation or local employer requirements in a certificate, diploma, or associate in applied science program. These curriculum courses shall be selected from the Combined Course Library and must be approved by the System Office prior to implementation. Restricted, unique, or free elective courses may not be included as other required hours.

	AAS	Diploma	Certificate
Minimum General Education Hours	15	6	0
Minimum Major Hours	49	30	12
Other Required Hours	0-7	0-4	0-1
Total Semester Hours Credit (SHC)	64-76	36-48	12-18

**Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic use of computers.*

Major Hours

[ref. 1D SBCCC 400.97(3)]

A. Core. The subject/course core is comprised of subject areas and/or specific courses which are required for each curriculum program. A diploma program offered under an approved AAS program standard or a certificate which is the highest credential level awarded under an approved AAS program standard must include a minimum of 12 semester hours credit derived from the subject/course core of the AAS program.

B. Concentration (if applicable). A concentration of study must include a minimum of 12 semester hours credit from required subjects and/or courses. The majority of the course credit hours are unique to the concentration. The required subjects and/or courses that make up the concentration of study are in addition to the required subject/course core.

C. Other Major Hours. Other major hours must be selected from prefixes listed on the curriculum standard. A maximum of 9 semester hours of credit may be selected from any prefix listed, with the exception of prefixes listed in the core or concentration. Work-based learning may be included in associate in applied science degrees up to a maximum of 8 semester hours of credit; in diploma programs up to a maximum of 4 semester hours of credit; and in certificate programs up to a maximum of 2 semester hours of credit.
